SMARTER LUXURY SLEEP

# Say Hello to Saatva.

Luxurious sleep without  
the luxury price

---

Welcome to a place where handcrafted luxury, eco-friendly materials, and superior construction come together at a price unmatched by our competitors. That's why we call it "Smarter Luxury Sleep."

## Company History

Saatva was founded in 2010 to be a different kind of mattress company. Shopping for a mattress was a notoriously frustrating experience. People had seen enough of misleading marketing, overbearing salespeople, and inflated prices. It was time for something new.

So Saatva adopted an innovative online model to make luxury mattress shopping easier for everyone. It included 24/7 customer service, free white-glove delivery, and a no-pressure in-home trial. Today, we are the largest online seller of luxury mattresses in the United States and have added our newest innovation — the Saatva Viewing Room.

## Made in the USA

---

On average, our mattresses travel less than 100 miles from the factory to your home. That kind of efficiency is better for the environment while providing employment to American workers and supporting local economies. We like to call that a win-win-win.

## Unparalleled Craftsmanship and Quality

---

Saatva mattresses are made with premium materials and built to the highest standards in one of our 19 partner factories across the country. Then they are hand-delivered and set up in the room of your choice by one of our white-glove delivery teams. For us, it ensures that we control every aspect of the process. For you, it means superior quality, from design and assembly to in-home set-up, all at a price you can feel good about.
